**PHENIX HOTEL,**  
(Corner of Main and Mulberry Streets),  
Lexington, Kentucky.

THE subscriber begs leave to inform his friends and the public generally, that he has leased this old and well known Hotel, in the city of Lexington, and that he has taken charge of the same.

The House has recently undergone a thorough renovation; the rooms are newly and neatly furnished, and still further improvements will be made to render it in all respects worthy of public patronage, and an agreeable home to those who may avail themselves of its privileges.

Intending to devote his own time and attention to the business, and to surround himself with competent assistants, together with faithful, polite and attentive servants, he gives the assurance to the public that no efforts on his part shall be wanting to make the old Phoenix in all respects worthy of its reputation in its palmy days.

Provisions, however, are too easily and too frequently made to be of much value unless accompanied by corresponding acts, and he, therefore, only asks that the public may test the sincerity of his pledges by giving him a call. They will all ways find him ready to minister to their comfort in the best manner in his power.

**Scrofula, or King's Evil,**  
is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children, and is the third and fourth generation; indeed, it seems to be the rod of affliction upon their children.

Its effects commence by depuration from the blood of corrupt or vitiated matter, which, in the lungs, liver, and internal organs, is termed tubercles in the glands, swellings, and on the surface, eruptions or sores. This foul corruption, which ganders in the blood, depresses the energies of life, so that scrofulous constitutions are not only liable to the most distressing complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; these persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

**AYER'S Compound Extract of Sarsaparilla,**  
the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERYSIPELIS and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSA, OR ERYSIPELIS, PUPULES, PUSTULES, BLITCHES, BLAINS AND BOILS, TUMORS, TETTER, AND SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYMPHYLITIS AND MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITiated OR IMPURE BLOOD. The popular belief in the efficacy of the blood is founded in truth, for scrofula is a degeneration of the blood. The purifying purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

**AYER'S**  
**Ague Cure,**

FOR THE SPEEDY CURE OF  
Intermittent Fever, or Fever and Ague, Remittent Fever, Chills, Fever, Dumb Ague, Periodical Headache, or Biliousness, Malaria, or Bilious Fever, and all the other forms of the disease, originating in malarial derangement, caused by the Malaria or Malarial miasm.

We are enabled here to offer the community a remedy which, while it cures the above complaints, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the malarial poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its preliminary symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar finds its way into the reach of every body; and in billious districts, where malarial and ague prevail, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of malarial taint is that it cures the system of Quinine, and consequently it produces no ill effects on the system, and is perfectly safe for the most delicate and infirm. These cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the malarial poison, a great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Hysteria, Pains in the Bowels, Colic, Paralysis, and all the other diseases of the stomach, all of which, when originated in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invincible protection to immigrants and persons travelling or temporarily residing in the malarial districts. It taken occasionally or daily while exposed to the infection, that will be exerted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is ever a valuable for protection, and few will ever suffer from the infection if they avail themselves of the protection this remedy affords.

**LIFE PILLS AND PHENIX BITTERS**  
THESE MEDICINES have now been before the public for a period of thirty years, and during that time have maintained a high character in almost every part of the Globe, for the extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.  
The following are among the distressing varieties of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be initial ble.  
Dyspepsia, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acid kind, Flatulency, loss of appetite, Heart Burn, Headache, Restlessness, Ill-Temper, Anxiety, Langour, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.  
Constipation, by cleansing the whole length of the intestine with a solvent process, and without violence; all violent purges leave the bowels active within two days.  
Fever of all kinds, by restoring the blood to regular circulation, through the process of respiration in such cases, and the thorough solution of all intestinal obstructions in others.  
The Life Medicines have been known to cure Rheumatism permanently in three weeks, and Gout in half that time, by removing local inflammation from the muscles and ligaments of the joints.  
Dropsies of all kinds, by freeing and strengthening the kidneys and bladder; the rapid rate most naturally on these important organs, and hence have been found a certain remedy for the worst cases of Dropsy.  
Also Worms, by dissolving from the turnings of the bowels the slimy matter to which these creatures adhere.  
Scoury, Cleans, and Inverate Sores, by the potent purity which these Life Medicines give to the blood, and all the humors.  
Scarlatina, Erysipelas, and Bad Complexions, by their alternative effect upon the fluids that feed the skin, and the morbid state of which occasions eruptive complaints, scallow, cloudy, and disagreeable complexions.  
The use of these Pills for a very short time will effect an entire cure of Scrofula, and a striking improvement in the clearness of the skin. Common Colds and Influenza will always be cured by one dose, or by two in the worst cases.  
Piles.—The original proprietor of these Medicines was cured of Piles, of 35 years standing, by the use of the Life Medicines alone.  
FEVER AND AGUE.—For this scourge of the Western country, these medicines will be found safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease; a cure by these Medicines is permanent—try them, be satisfied, and be cured.  
Bilious Fevers and Liver Complaints.—General Debility, Loss of Appetite, and Disordered Stomach.—The Medicines have been used with the most beneficial results in cases of this description.  
King's Evil, and Scrofula, in its worst forms, yields to the mild yet powerful action of the Medicines. Night sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painters' Colic, are speedily cured.  
Mercurial Diseases.—Persons whose constitution have become impaired by the injudicious use of mercury, will find these Medicines a perfect cure, they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

#### English News.

The latest foreign arrivals bring accounts from Queenstown to the evening of the 3d instant.

A new steamer called "290" sailed from the Mersey for Nassau or Havana on the 28th ultimo and was supposed to be intended for the Confederates. After quitting the Mersey she awaited outside for a steamer, which conveyed to her a crew of fifty men. She is a powerful steamer of 1,120 tons. On the 30th July she passed into Holyhead, where for some reason, which is not explained, all the men left her. It is supposed that the object of the Tuscarora's cruise was to look after this vessel, and not the Merrimac.

Mr. George Francis Train was imprisoned in London on the 1st instant. It is said to have been done to prevent his embarking for America, where he intended to raise volunteers for the war.

The Paris correspondent of the London Times says the French Government has addressed or is about to address a circular to the European Powers that have recognised the Kingdom of Italy, urging the necessity of a General Congress for the definitive settlement of the affairs of that country. It dwells particularly on the impossibility of keeping a French army much longer at Rome to protect a Government which has invariably rejected all the propositions hitherto made with, and which will make no concessions to its subjects.

#### PRAYER FOR AMERICA.

The English Diocese of Oxford has taken the initiative of offering up public prayers for this country, the Bishop having addressed the subjoined letter to his Archdeacons:

"CROSDEN PALACE, July 30, 1862.

"My dear Mr. Archdeacon: May I request you to communicate to the clergy of your archdeaconry the following injunction from me as ordinary:

"That, on the Sunday after the receipt of it, they give notice to their congregations, at the conclusion of the Nicene Creed, in these terms: 'You are earnestly desired to make your humble supplications to Almighty God, who is the author of peace and love of concord, that he will promote peace among our brethren in America, and inspire their hearts with Christian unity and fellowship.'

To allow of which prayer a short pause will for the present be made after the suffrage in the Litany; that it may please Thee to give to all nations unity, peace, and concord; and to the prayer 'for all sorts and conditions of men,' after the words 'We commend to Thy fatherly goodness all those who are in any way afflicted or distressed in mind, body, or estate.'

"I am, my dear Mr. Archdeacon, your faithful friend and brother, H. OXON."

The Army and Navy Gazette observes that it is probable that for some time to come English mediation will be confined to such terms as are given to the feelings of the people in the Bishop's directions to his clergy.

JOHN ROSS.—The distinguished Chief of the Cherokees will reach here this morning. On the 20th of July we published a letter from him to Col. Weir, in which the Chief stated that he still adhered to the rebel cause, and we have never felt at liberty to deny it, and state the true facts of the case. John Ross is a Union man, never was anything else and never could be. But for more than a year his life and that of his friends has been in the hands of traitors, and the Chief was compelled to pursue the course he has taken in order to save his people from ruin. He has played his part wisely and successfully, and we now hope the Government will follow out its work of reclaiming that country.

FIGHT NEAR FORT SCOTT.—We learn from the Leavenworth Times that Colonel Barstow, of the 3d Wisconsin, with one or two companies, left Fort Scott recently to reinforce Capt. Conkey, of his regiment, who was stationed at Monticello, Jasper county, Mo. Some distance below the former post he was surrounded by a guerrilla party, several hundred strong. Nothing then remained but to cut their way through the meshes of the net into which they had been drawn, which was successfully accomplished, with the loss, however, of the surgeon of the regiment and three of the men, who were taken prisoners.—*Liberty Tribune.*

## TELEGRAPHIC.

[Special to the Louisville Journal.]

MADISONVILLE, VIA EVANSVILLE, August 26.

The guerrillas gave us a fight two miles from town to-day in ambush by firing on our cavalry, which, after falling back, dismounted and drove them back a mile, where we waited for infantry.

After fifteen minutes' brisk firing the rebels broke and fled, being attacked by two companies of infantry. I would have surrounded the whole gang but for the heat and dust, and having had a forced march, which totally exhausted the infantry.

The hills and woods prevented the use of cavalry. Five are reported killed and seventeen prisoners taken. Six of our men are wounded, two mortally. Lieutenant-Colonel Johnson, 65th Indiana, commanded the infantry and Capt. Platten the cavalry. The rebel Johnson is reported to have fled to town Hopkinston to bring up reinforcements on their way from Clarksville.

J. W. FOSTER,

Lieutenant-Colonel Commanding.

WASHINGTON, Aug. 26.—From information received from various quarters thousands of men have passed over into Virginia, principally from the eastern counties of Maryland. An entire company of cavalry left Montgomery county on the Potomac last week, and squads are constantly moving into Virginia.

Twenty-one prisoners of war and about as many prisoners of State have just been released from the old Capital prison on the usual conditions. Upwards of three hundred are still retained. Among them are Mr. Malbury, who had been discharged upon taking the oath of allegiance, but who was afterwards arrested for carrying the rebel mail from Maryland to Virginia, and Captain Matthew Clark of the former State, who was detected recruiting for the rebels.

The extensive prison in Georgetown is for deserters and stragglers who are from time to time returning to their respective regiments.

GREENSBORO, MO., Aug. 26.—Since the battle of Lone Jack, Gen. Blunt, with a formidable force, has been pursuing the combined rebel bands under Coffee and Quantrell. It was expected they would form a junction with Haines at Greenfield and offer him battle. All hoped such would be the case, for Gen. Blunt had sufficient forces to dispel any feelings of apprehension as to the result being other than a victory for the national arms. The guerrillas would also have almost their entire strength in the engagement, and with their defeat and dispersion would virtually end the guerrilla raids in Missouri, but the rebel Rains was not at Greenfield.

The bands of Coffee and Quantrell fled on. The Arkansas alone promised safety, and that was gained as speedily as possible.

Gen. Blunt having found further pursuit useless, has sent his artillery and cavalry to Fort Scott. His infantry yet remain in the vicinity of Greenfield, where all at present is quiet.

In Arkansas Coffee and Rains have formed a junction, and are recruiting and reorganizing, evidently for further depredations. Gen. Blunt's force is so disposed that it can keep close watch and speedily move to any point required.

With the exception of small roving bands, the State at present may be considered free from Confederates forces, though they are only waiting for a favorable opportunity to again swarm over it.

ST. PAUL, August 25.—A messenger from Henderson says the half-breed scout Fencer, would return to Fort Ridgely, and give in names. Such assurances and belief they can hold out, and can be no surrender without annihilation. The inmates know this.

Col. Sibley's force was at St. Peters at 4 o'clock Saturday morning, fifty miles from Fort Ridgely, but he could not reach there before Sunday evening. Col. Cullen, with 700 cavalry was to strike across the country from Henderson, and may get there ahead of Sibley.

It is believed that the Indians will get information of the force advancing, and hastily leave the fort.

Col. Cullen writes that the further he advanced the news becomes worse.

All the inhabitants were flocking into the towns.

Hon. J. R. Cleveland writes on the 21st from Warkato, that he said at New Ulm, last night, and saw a most horrible sight: one instance, he relates, where he saw eight bodies of stalwart men, with their throats cut from ear to ear. Their skulls were battered and limbs mutilated. He knew some of them well, as good citizens of Brown county. Our opinion is that not less than five hundred have been massacred.

Large portions of Blue Earth and Brown counties are depopulated.

The wheat was left unobstructed in the fields and owners flying eastward.

#### The Laws of War.

We alluded on Saturday last to the laws and usages of war as laid down by Mr. Marcy, while Secretary of War under President Polk, for the instruction of Generals commanding our armies in Mexico.

Mr. Polk, in his regular annual message to Congress in December, 1847, alluded to the circumstances which had dictated the propriety of those orders. He stated that at the commencement of the war with Mexico it was deemed proper to conduct it in a spirit of forbearance and liberality. With this view early measures were adopted to conciliate, as far as a state of war would permit, the mass of the Mexican population, to convince them that the war was waged not against peaceful inhabitants, but against their Government; to remove from their minds the false impressions which their rulers had artfully attempted to make—that the war on our part was one of conquest; that it was a war against their religion and their churches, which were to be desecrated and overthrown; and that their rights of person and private property would be violated. To remove these false impressions, he added, our commanders in the field were directed scrupulously to respect their religion, their churches, and their church property, which were in no manner to be violated. They were directed also to respect the rights of persons and property of all who should not take up arms against us. But, as in the progress of the war, it had become apparent that the Mexican people did not appreciate our forbearance and liberality, it was deemed proper by our Government to change the manner of conducting the war, so as to make them feel its pressure, "according to the usages observed under similar circumstances by all other civilized nations."

Accordingly, on the 22d of September, 1846, instructions were given by the Secretary of War to Major General Taylor, to "draw supplies" for our army "from the

enemy, without paying for them, and to require contributions for its support, if in that way he was satisfied he could get abundant supplies for his forces." These instructions were as follows:

"The instructions heretofore given have required you to treat with great kindness the people, to respect private property, and to abstain from appropriating it to the public use without purchase at a fair price. In some respects this is going far beyond the common requirements of civilized warfare. An invading army has the unquestionable right to draw its supplies from the enemy without paying for them, and to require contributions for its support."

"Upon the liberal principles of civilized warfare, either of three modes may be pursued in relation to obtaining supplies from the enemy: First, to purchase them on such terms as the inhabitants of the country may choose to exact; second, to pay a fair price without regard to the enhanced value resulting from the presence of a foreign army, and, third, to require them as contributions, without paying or engaging to pay therefor."

"The last mode is the ordinary one, and you are instructed to adopt it, if in that way you are satisfied you can get abundant supplies for your forces." \* \* The President hopes you will be able to derive from the enemy's country, without expense to the United States, the supplies you may need."

On the 3d of April, 1847, Mr. Marcy recalled these instructions to the notice of General Scott, and added that, "as the Mexicans persist in protracting the war, it is expected that, in the further prosecution of it, you will exercise all the acknowledged rights of a belligerent, for the purpose of shifting the burden of it from ourselves upon them." As we have already said, our Generals in Mexico found it impracticable to obey these instructions, and at a late date Mr. Marcy concurred in the theoretical propriety of their conduct.

**IMPROVED GUTTA PERCHA**  
**CEMENT ROOFING.**

The Cheapest and most Durable Roofing in use. IT IS FIRE AND WATER PROOF.

It can be applied to NEW and OLD ROOFS of ALL kinds, steep or flat, and to SHINGLE ROOFS without removing the Shingles.

The Cost is only about One-third that of Tin, and it is Twice as Durable.

This article has been thoroughly tested in New York City and all parts of the United States, America, on buildings of all kinds, such as Factories, Churches, Churches, Railroad Depots, CARS, and on Public Buildings generally GOVERNMENT BUILDINGS, &c., by the principal BUILDERS, ARCHITECTS and others, during the past four years, and has proved to be the CHEAPEST and MOST DURABLE ROOFING in use; it is in every respect A FIRE, WATER, WEATHER, and TIME PROOF covering for ROOFS of ALL KINDS.

It is the ONLY material manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally acknowledged to be of GUTTA PERCHA AND INDIA RUBBER.

No Heat is required in making Application.

The expense of applying it is trifling, as an ordinary Roof can be covered and finished the same day.

IT CAN BE APPLIED BY ANY ONE, and when finished forms a perfectly FIRE PROOF surface, with an elastic body, which cannot be injured by HEAT, COLD or STORMS, SINKING OF ROOF BOARDS, nor any external action whatever.

**Liquid Gutta Percha Cement,**  
For Coating Metals of all kinds when exposed to the Action of the Weather, and  
For Preserving and Repairing Metal Roofs of all kinds.

This is the ONLY COMPOSITION known which will successfully resist extreme changes of all climates, for any length of time, when applied to metals, to which it adheres firmly, forming a body equal to the most costly of ordinary paint, costs much less, and will LAST THREE TIMES AS LONG; and from its elasticity is not injured by the contraction and expansion of TIN and other METAL ROOFS, consequent upon sudden changes of the weather.

It will NOT CRACK in COLD or RUN in WARM WEATHER, and WILL NOT WASH OFF.

LEAKY TIN and OTHER METAL ROOFS can be readily repaired with GUTTA PERCHA CEMENT, and prevented from further corrosion and leaking, thereby ensuring a PERFECTLY WATER TIGHT ROOF for many years.

This Cement is peculiarly adapted for the preservation of IRON RAILINGS, STOVES, RANGES, SAFFS, AGRICULTURAL IMPLEMENTS, &c., also for general manufacturers use.

**GUTTA PERCHA CEMENT**  
For preserving and repairing TIN and other METAL ROOFS of every description, of short notice, for GUTTA PERCHA ROOFING in rolls, ready prepared for use, and GUTTA PERCHA CEMENT in barrels, with full printed directions for application.

[Extracts from letters from S. L. Loomis, Esq., President of the Phoenix Insurance Company, of Hartford, Conn., to R. H. & H. M. Magill, General Agents, relative to the late serious conflagration at Troy.]

"A big fire at Troy—we are in how much we don't know. May be \$30,000; but whatever it is, it will be paid as fast as adjusted, and no crying. Secretary Kellogg went up there this morning. Mr. Wallace (Adjuster) will meet him to-morrow. They will make short work of it. The fire swept off about fifty acres of buildings—and calamity to Troy, but one human forecast could have prevented. It is the first emergency we ever had, and such an one as gives more character to a Company than a hundred \$5,000 fires."

"Our losses may reach \$15,000 or \$20,000, but whatever they are, they will all be paid before SATURDAY NIGHT if they can be adjusted. It is such a fire that try the backbone of Companies, and if they can stand up under the heavy load, it will give them great credit."
